

## Fuel Consumption, Measure (Z 22 SE, Z 20 LET)

Use a fuel throughflow meter which can display total consumption and instantaneous consumption.

### Install

Measuring probe into the fuel line between the fuel tank and the fuel filter.

Fuel return line directly to the fuel filter.

Position the display in the passenger compartment.

### Measure

For an accurate result the fuel consumption needs to be measured in urban and extra-urban traffic.

### Remove

Throughflow meter.

### Install

Fuel lines.
