

Test and Adjustment Values (Z 22 SE)

Engine		Z 22 SE
Idle speed		610 – 850 ¹⁾
Maximum engine speed	rpm	6500
Spark plug electrode gap	mm	1,1 ± 0,1
Compression	kPa	1280 ²⁾
Pressure loss		not more than 25 % per cylinder
Valve clearance	mm	0

1) Correction and testing with TECH 2 in accordance with the relevant vehicle system test manual.

2) The pressure difference between each cylinder should not be more than 100 kPa.
