

## Brake Pads, Inspect for Wear

Illustration shows front and rear brake pads on left side, right side is similar.

**Remove**

Wheels from vehicle – bolts.

**Measure**

Thickness of brake pads (excluding backing).

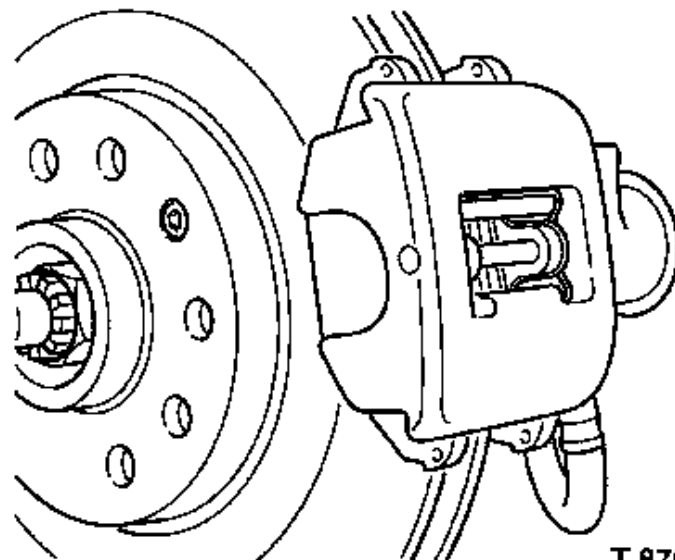

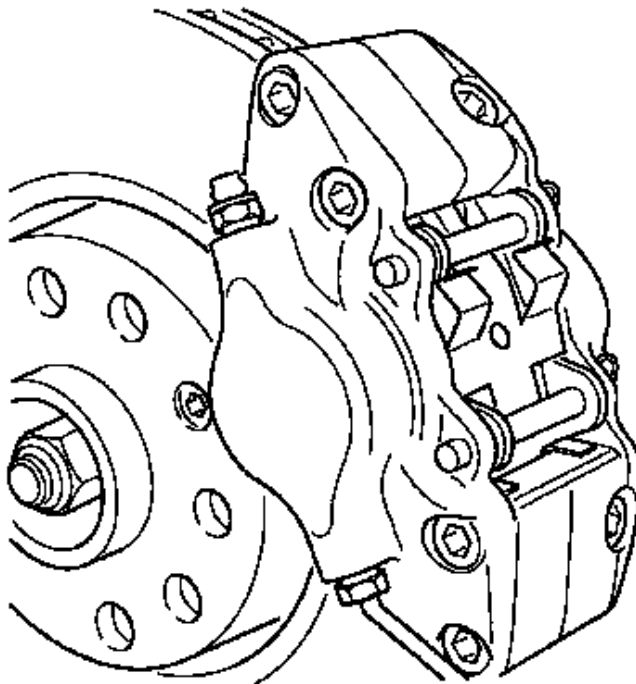

Minimum brake pad thickness (excluding backing) – **2.5 mm**.

**Important:** All four brake pads on an axle must be replaced if any brake pad is less than minimum thickness.

**Install**

Wheels to vehicle – bolts **90 Nm**.
