Subject: [Engines - EGR valve overview](#)

Models: **Engines:** **Option:**

All 2001... All None

Complaint: EGR valve does not longer exist in some engines.

Cause: Increase of catalytic converter efficiency.

Production:

Remedy:

As of modelyear 2003, the EGR-valve was removed from several engines due to the implementation of catalytic converters with increased efficiency. With launch of the new "XEP" engine line the EGR-valve is scheduled to be re-implemented.

Overview of engines with/without EGR-valve:

Z10XE: existing
Z12XE: removal as of MY03
Z14/16XE: existing
Z16SE: existing
Z16XEP: existing
Z18XE: Vectra-C: removal as of MY03(Running Change)
Z18XE: Corsa: removal as of MY03(Running Change)
Z18XE: Astra/Zafira: existing (removal scheduled for MY04 Running Change)
Z18XE: Meriva und Vectra-B no EGR
Z22XE: existing
Z22SE: existing
Y26/32SE: not existing
Z32SE: not existing
